

CLIMATE CONVERSATIONS

RECYCLING IS ^{NOT} ENOUGH

Reducing, reusing and recycling will all help to reduce climate change. Our fact sheet will help you understand which are the most important ones to do first.

1. Reducing the amount of new stuff we buy is easier than you think. There are lots of alternatives, for example, if someone you know has a birthday coming up...

Write the name of someone you know who has a birthday coming up soon!

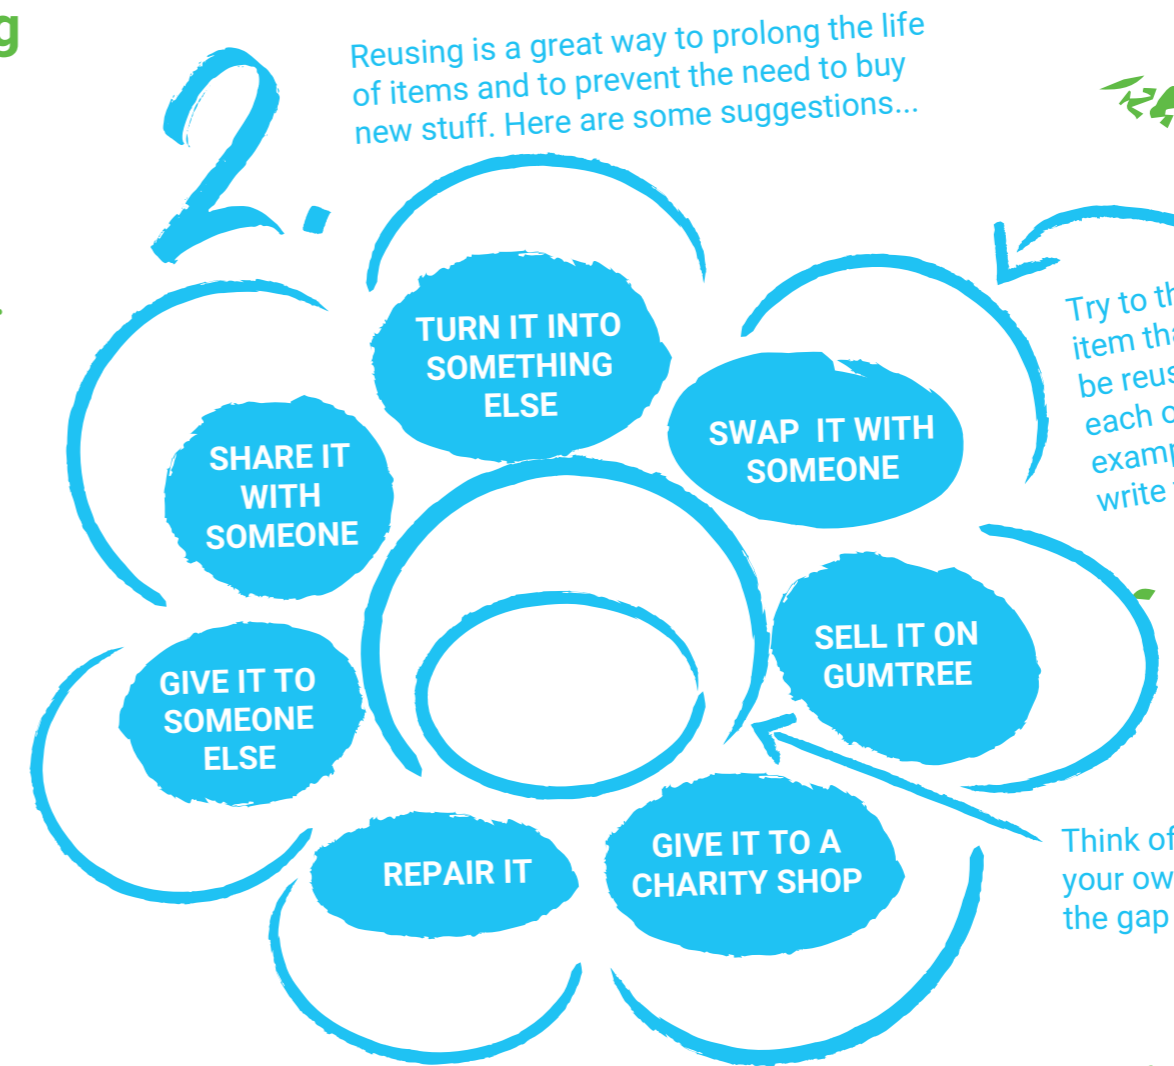

BREAKFAST IN BED FOR A WHOLE WEEKEND

A FULL WASH AND POLISH OF YOUR CAR OR BIKE!

3 BATCHES OF YOUR FAVOURITE COOKIES BAKED FOR YOU OVER THE NEXT YEAR!

USE OF MY NEW ROLLER SKATES EVERY SATURDAY FOR A MOINTH

Now think of two of your own ideas of what you could give that person:

3. Recycling is as easy as ABC, especially if you live in East Devon. Do our quick quiz on recycling then check the answers below

In East Devon I can recycle these from home:
Simply cross out any that you think can't be recycled

- ALUMINIUM FOIL
- BATTERIES
- CARDBOARD
- AARDVARKS
- BREAD CRUSTS
- CANS
- AEROSOLS
- BOTTLES
- CLOTHES

Answer: an aardvark is not recyclable in East Devon!

Now choose another letter of the alphabet and write a list of three things that can be recycled starting with that letter. (Hint: don't choose Z!)

Who can you tell about your recycling expertise? ...parents? friends? neighbours? family?

Do you know anyone who doesn't recycle yet? What could you say to them to help get them started?
