Have you got an old clock that could become part of a new art installation?

Winning Gallery needs your unwanted clocks!

Thelma Hulbert Gallery (THG) is calling on the community to play an important part in renowned artist Luke Jerram's art installation by bringing their unwanted clocks to the gallery. We need 1,000 clocks before October to make this happen.

Clocks can be any shape or size, working or not working. We are also interested in any story or memory relating to your donated clock, which can be added on a written note to the clock. Please note the clocks are to be donated to the gallery and can not be returned.

For more details, please visit the gallery on Dowell Street, Honiton or contact us on 01404 45006 or info@thelmahulbert.com

The installation will take place at THG from 27 to 31 October 2015 with activities and events as part of the Museums at Night festival.

These clocks will be collected on:
